Sites

Jewish General Hospital
 MUHC: Glen-Royal Victoria Hospital
 MUHC: Montreal General Hospital
 St. Mary's Hospital
 Hôpital de LaSalle
 Lakeshore General Hospital

Elective Description

Minimum 3-4-week electives. Not possible to have a 4-week elective split between two sites.
 From July to mid-December. 1-2 students per site. Limited spots available.

*At the RVH and the JGH – since the sites can accommodate more than 1 student at a time, the electives need to start on the first day of a McGill period so that all electives at one site start at the same time.

**No elective availabilities at the JGH in period 1 and period 2. No elective availabilities at the MGH in period 1.

***Elective requests start to be processed mid-May. Until then, no availability can be confirmed.

****First come, first served, however, first requests of Med 4 and Med 3 students need to be processed before any second requests (of the same students) can be processed.

Elective Duration

3-4 weeks. Not possible to have a 4-week elective split between two sites.

Educational Objectives

Student will have supervised experiences related to the basics of resuscitation, preoperative, intraoperative, and postoperative anesthesia care and on-call clinical apprentice sessions. Students will also be asked to demonstrate understanding of clinical applications of pharmacology and physiology. Additionally, students will acquire the basic knowledge to assess and treat acute and chronic pain.

Scope of Work

Work hours 7:30-4:00, on-call schedule 1 call (4 pm to 10 pm) operating room, and preoperative assessments in operating room.
