Undergraduate Medical Education Elective

Elective Description

This clinical elective is designed to allow students to gain experience in emergency care. Students are encouraged to participate in the diagnosis and management of patients with a wide range of minor or major medical/surgical problems and to learn medical and surgical procedures related to emergency care. This is an exciting, hands-on elective.

No last minute alterations to site or scheduling can be accepted. Once you are placed, changes will not be accommodated.

Lakeshore General Hospital
