Elective Description			
<p>The elective is designed to teach the student to evaluate a patient with liver disease. The student will perform consultations on in-patients with liver disease under the supervision of one of the preceptors. He will also be able to participate in several out-patient clinics and see patients with liver disease and present them to the preceptor for discussion. The student will have an opportunity to participate in a weekly hepatology journal club and monthly liver pathology session, reviewing all of the liver biopsies of the week with staff.</p>
