Elective Description
<p>This is a very active area with the student assigned in a primary care role in the diagnosis and treatment of a variety of neurotic, psychotic, and characterological disturbances. The student's work would involve assessment of new referrals to OPD, some short-term psychotherapy and participating in Neuroleptic Clinic, Affective Disorder, and Geriatric Clinics. The student may elect to spend part of the time in the Psychopharmacological Division of the Clinic, which affords the opportunity to gain knowledge in the clinical application of psychotropic drugs. Supervision is by Attending Staff. The elective is available to one student.</p>
