<b>Elective Description</b>			
<p>A clinical elective in Orthopedic Surgery is available to interested students. The Orthopedic Service has 36 active beds and deals with a variety of musculoskeletal problems including trauma, reconstructive hip and knee surgery, foot and ankle surgery, spine surgery and some general orthopedics. Weekly teaching rounds, fracture rounds and other conferences are held. There is also a monthly Journal Club. Students will have the opportunity to attend orthopedic clinics, orthopedic offices and the operating room. They will have the opportunity of becoming an integral part of the orthopedic team and become active in all facets of the service. By the end of the rotation, students will have had the opportunity to learn how to perform a good basic musculoskeletal examination, be familiar with radiographic aspects of orthopedics (especially fractures and arthritis), be familiar with general principals of fracture care, arthritis management and management of back pain.</p> <p>Only 4-week electives will be accepted.</p>

**Elective Description**

The Orthopedic Service at St. Mary's Hospital includes seven orthopedic surgeons actively involved in arthroscopic surgery, reconstructive hip and knee surgery and some foot surgery. With one Orthopedic resident, the interested student often has an opportunity to interface directly with the staff becoming an integral part of the Orthopedic team.

Only 4-week electives will be accepted.

## Scope of Work

Our service runs a busy operating room schedule. Each week the staff presents patients for rounds. Students and residents are actively involved in the physical examination of these patients under staff supervision, an excellent opportunity to learn musculoskeletal skills.
