MUHC: Montreal General Hospital

**Elective Description**

Available to two students. In this elective, the student plays an active role in the management of thoracic and upper gastrointestinal surgery patients. As part of a close-knit team, he is supervised by resident and attending staff in diagnosis and pre- and post-operative care. Attendance at rounds and related seminars is expected and an opportunity to assist at operations is encouraged but not mandatory. Clinical research on a special problem of interest to the student can be arranged.
